

15 Watt Wind Turbine (WH01)

Technical specifications:

- WH01 is the Cyber 15 high speed wind turbine generator.
- It produces 14 volts DC and .75 amps in 40 mph winds and the output increases as wind speed increases.
- The turbine is very compact, measuring approximately 25cm long and utilizing a 2-blade 30cm propeller.
- Weight: 350gr
- The turbine is very quiet even though it easily turns over 1000rpm in 25mph winds. This is verified with an optical tachometer.
- Ideal for educational purposes and demonstration of how a wind turbine operates.
